Subject: Permit to Commence Small Mine Activities, TM Crushing, LLC, Glenwood Gravel Pit Mine, S/035/0050, Salt Lake County, Utah

Dear Mr. Hadfield:

The Division of Oil, Gas and Mining (Division) finds your notice of intention (NOI) complete and approves the reclamation surety for the Glenwood Gravel Pit Mine. The reclamation surety is escalated to 2020 dollars. You are now permitted to conduct small mining operations on 10 acres as outlined in the NOI. The approval or acceptance of a complete NOI does not relieve an operator from his responsibility to comply with the applicable statutes, rules, regulations, and ordinances of all local, state and federal agencies with jurisdiction over any aspect of the operator's mining operations.

Please keep in mind the following regulatory requirements:

- Stockpiling topsoil material prior to beginning activities will help ensure successful revegetation. Even the first few inches of undeveloped material is worth saving to aid in later revegetation efforts, and future regulatory surety release.
- Please notify this office and the Division of State History if you encounter any archaeological or historical items.
- Permit fees and annual reports are due by January 31<sup>st</sup>.

The Division's web page at <http://ogm.utah.gov> under the Minerals Program has a link to the rules under which you are expected to operate and to other information to assist you in complying with program requirements. Thank you for your cooperation.
